13 October 2026

Solid State plc

("Solid State", the "Group" or the "Company")

Capital Markets Day

"Combining Capability, Elevating the State"

Solid State plc (AIM: SOLI), the specialist value added component supplier and design-in manufacturer of computing, power, and communications products, will host a Capital Markets Day on Wednesday 25 November 2026.

Following the appointments of John Macmichael as CEO and Victor Chavez CBE as Chair of the Board and the Group's restructuring into three divisions, the Group will be presenting key takeaways around its strategies and ambitions to accelerate growth.

This will be an opportunity to meet with the team that is delivering on those plans and to see live product demonstrations that will bring the solutions to life, helping investors and potential investors to understand the world class capabilities of the various operating companies within the Group.

The CMD will be held in person and virtually. Places for the in person event, which will be hosted by Cavendish at its offices at 1 Bartholomew Close, London EC1A7BL, are limited so if you would like to attend in-person please contact IR@cavendish.com.

Presentations will start at 10.00am and will run until 12:30pm with an opportunity for Q&A afterwards. A copy of the presentation will be available on Solid State's website after the event.

On-line attendees
A live streamed webinar of the Capital Markets Day is available to all investors. Online attendees can register using the link below:
https://www.investormeetcompany.com/solid-state-plc/register-investor

There will be no new financial information provided at the Capital Markets Day.

Notes to Editors:

Solid State plc (AIM: SOLI) is a leading value-added electronics group supplying industrial and defence markets with durable components, assemblies and manufactured systems for use in critical applications, with a particular emphasis on harsh operational environments. Solid State's products are found around the world, from the ocean floor and into space, ensuring the smooth operation of systems that augment our everyday lives.

The Company has a core focus on integrated computing and vision systems, high performance antenna and radio communications systems, battery power solutions, and electronic components.

Operating through three divisions (Systems, Power and Components) the Group thrives on complex engineering challenges, often requiring design-in support and component sourcing. Serving a wide range of industries, with particular skills and expertise relevant to defence, energy production, aerospace, environmental, oceanographic, industrial, robotics, medical, life sciences, and transportation, the Solid State trading brands have become synonymous with quality and reliability. The Group operates under the brands of Steatite, Solsta, Custom Power, Pacer, Active Silicon, Gateway, Durakool, Ndura, and Q-Par.

Solid State plc is headquartered in Redditch, UK, and employs over 475 people around the world. The business has seven production facilities in the UK and one in the USA. In total, including all office locations, the Group operates from 13 national and international sites.

Solid State was established in 1971 and admitted to AIM in June 1996. The Group has grown organically and by acquisition - having made three acquisitions in the last five years.
